ADVISORY

No. 03 s. 2019

To : **SCHOOLS DIVISION SUPERINTENDENTS**

From : **THE REGIONAL DIRECTOR**

Subjects : **1ST NATIONAL ROBOTICS COMPETITION PHILIPPINES AND
 2ND NATIONAL SCIENCE & ENGINEERING FAIR 2019 PHILIPPINES**

1. Please be informed that the STEM Education Training Hub shall conduct the following activities:

Title of the Activity	Date	Venue
1 st National Robotics Competition Philippines	January 12, 2019	DepEd National Educators Academy (NEAP) NCR, Cepeda cor. E. Santos St., Concepcion, Marikina City
2 nd National Science & Engineering Fair (NSEF) 2019 Philippines	February 2-3, 2019	Teachers' Camp, Baguio City

2. Attached are letters of the STEM Education Hub Director and the details of the events as well as the program matrixes, for reference.
3. For inquiries, please contact Ms. Kelly or Hernan at mobile numbers 09989510225, 09153530454, and 09331077763 or email at stemeducationhub@gmail.com or visit their Facebook page: [facebook@stemhub21](https://www.facebook.com/facebook@stemhub21) and their website: www.stemtrainings.com.
4. For appropriate action.

BEATRIZ G. TORNO, Ph.D., CESO IV
 Regional Director

National Robotics Fair
PHILIPPINES

November 13, 2018

Dear Sir / Madam

SUBJECT: NATIONAL ROBOTICS FAIR PHILIPPINES

A pleasant day to you!

For the past few years, robotics program is introduced in many of our public and private schools in the country. The use of robots in the classroom introduces students to possible career paths they may have never considered. In addition, robotics is a perfect way to show students that engineering and IT can be fun by making abstract knowledge concrete. Working with robots enhances creative problem solving techniques and encourages the development of basic communication and interpersonal skills as well as the ability to collaborate and convey complex ideas to a fellow students or colleagues.

This curricular move targets to support the thrust of the Department of Education curriculum in developing learners that are creative, critical thinkers and problem solvers. Our company, the STEM Education Training Hub have been giving training programs on robotics for teachers and students for several years now. With our international partners, we have been bringing students and teachers to various international robotics competitions and training events.

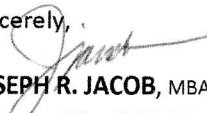

We are organizing a big scale robotics competition to increase awareness on the benefits of the program to child's development and 21st century skills acquisition. We are respectfully seeking your endorsement to the **1st National Robotics Competition Philippines** on **January 12, 2019** at DepEd National Educators Academy (NEAP) NCR, Cepeda Cor. E. Santos St. Concepcion, Marikina City.

We respectfully seek for your favor by helping us reach students and teachers who have interest in robotics. And together, through this program, we could be able to cultivate a society full of critical and creative thinkers, and problem solvers.

Attached are the details of the events as well as the program matrix for reference.

Thank you very much,

Sincerely,

JOSEPH R. JACOB, MBA, MAEd, FRIEDr

Director, The STEM Hub

2nd National Science & Engineering Fair 2019 PHILIPPINES

February 2-3, 2019, Teachers Camp, Baguio City

November 6, 2018

Dear Sir / Madam

SUBJECT: 2ND NATIONAL SCIENCE AND ENGINEERING FAIR PHILIPPINES

A pleasant day to you!

In support to the thrust of the Department of Education curriculum in cultivating a nation full of critical thinking and problem solving citizens through holistic learning and standards-based education, the STEM Hub, a premier institution which focuses on STEM Education, research and education programs would like to seek for your endorsement for the **2nd National Science and Engineering Fair (NSEF) Philippines** to be held at the Teachers' Camp, Baguio City on February 2-3, 2019.

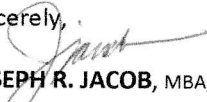

The program aims to create a culture of research in the nation and bring about opportunities for learning and collaboration platform among the young scientific minds and teachers. In April 2018, there were about 300 young research finalists and observers with 81 research projects from all over the country participated in the 1st NSEF. We are successful in the digital publication of these abstracts in the National Library of Singapore through the support of our international partner Ascendens Asia Singapore. We are expanding this program by opening it to elementary, high school, and college students and basic education teachers to promote our thrust and support in the STEM education in a wider scope.

We respectfully seek for your favor by helping us reach students and teachers who have great interest in the field of scientific and multidisciplinary research. Hoping that with your support, we could be able to create a civilization filled with scientific minds that have greater appreciation and desire to improve the lives of the human beings, the society and the environment.

Attached are the details of the events as well as the program matrix for reference.

Thank you very much,

Sincerely,

JOSEPH R. JACOB, MBA, MAEd, FRIEDr

CREATIVE ROBOT COMPETITION

Participants of this competition will design their robot or any creative machine that may solve a particular problem which may either be societal or environmental. This is open for the following:

- Junior High School Students
- Senior High School Students
- College Students

Requirements:

1. Submit your write up in WORD Format with the following information:
 - Project Title
 - Your name/ Institution
 - Project Description
 - Picture of the Project
2. The competition may be for individual or team. The team should be composed of maximum of three (3) members.
3. Email the write up and the copy of the registration fee to stemeducationhub@gmail.com

How to join:

1. Email or Text us your name, school and contact details as well as the event you are interested to join in. Participants may join in

maximum of two events provided that there is no conflict in the schedule.

2. The individual registration fees are as follows:
 - Regular Registration Fee: P 1,500
 - Observers Fee: P1,000

HUMANOID ROBOT GOT TALENT

This competition is open for any type of humanoid robot. This is an onsite competition where the participants will be given the contest piece and will do the programming at the venue.
Category:

1. Autonomous

Age Groups:

1. Kids: 8 -12 years old
2. Teen: 13-18 years old

How to join:

1. Email or Text us your name, school and contact details as well as the event you are interested to join in. Participants may join in maximum of two events provided that there is no conflict in the schedule.
2. The individual registration fees are as follows:
 - Regular Registration Fee: P 1,500
 - Observers Regular Fee: P1000

URC: ULTIMATE ROBOT CHAMPIONSHIP

This competition is a line tracing competition open for the wheeled robot which intends to stay as the last wheeled robot standing in the arena.

The categories are controlled and autonomous which are further categorized into the following:

1. Light Weight (1 kg)
2. Medium Weight (2 kg)
3. Heavy Weight (3 kg)

This is open for the following age groups:

- 8-12 years old
- 13-18 years old

How to join:

1. Email or Text us your name, school and contact details as well as the event you are interested to join in. Participants may join in maximum of two events provided that there is no conflict in the schedule.

2. The individual registration fees are as follows:

- Regular Registration Fee: P 1,500
- Observers Regular Fee: P1,000

Deposit the fees to:

2nd National Science & Engineering Fair 2019 PHILIPPINES

February 2-3, 2019, Teachers Camp, Baguio City

Program Matrix

Time	Day 1 Activities			Day 2 Activities
8am-9am	Registration			-Symposia: Open to finalists and observers and the public -Meet and Greet with the Filipino Scientists Public Visitation
9am-10am	Project Set Up	STEM Activities for Students, teachers, and adult observers: Poster Making		
10am-11:30am	Project Infracation Interviews	Robotics activities Performance Task Challenge		
11:30nn-1:00pm	Noon Break			
1:00pm-2:00pm	Opening Program	Educators Academy:	Students Academy:	Public Visitation
2pm-5pm	Onsite Project Evaluation	Plenary Talks for adult observers	Plenary talks and activities for student observers	Grand Award Ceremonies
5pm-6pm		Awarding of Certificates and Awards for the		Halls open for Project Teardown
6:30 pm-9pm	Kids Mixer & Souvenir Exchange (open elementary finalists & observers)	Student Mixer & Souvenir Exchange (open for finalists & student observers)	Adult Mixers (open for teachers, adult companions, observers)	Home Sweet Home

- Science and Mathematics Intervention Materials
 - Creative Lesson Plan Competition
- c) Copy of the deposit slip of P300 pre evaluation fee
- d) Information sheet.
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

TEACHERS CATEGORY

Scientific Research Competition

This event is open for all basic education teachers from public and private schools. It is a venue for teachers who would like to share their research discoveries and expertise to the public for the improvement of the society, environment and lives of the human beings.

Categories:

1. Research Competition

a) Experimenting Category

This category includes the following topics:

Behavioural & Social, Sciences, Biology, Chemistry, Environmental, Flora & Fauna, Food Science

b) Engineering Category

This category includes the following topics:

Astrophysics, Energy & Space, Physics, Electricity & Electronics, Inventions & Innovations, Robotics, Computer Science & Math

c) Multidisciplinary Category (Open Category)

This category includes research topics other than experimenting and engineering categories.

How to join:

- A. Email us at nsefp1@gmail.com to express your intent to join NSEF 2019 and attached the following:
- e) Abstract for the Research Competition
 - f) Project Description
 - g) Copy of the deposit slip of P300 pre evaluation fee
 - h) Information sheet.
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

TEACHERS CATEGORY

Creative Lesson Plan Competition

This contest aims to produce a repository of the creative lesson plans that will meet the needs of the 21st century learners. This will serve as a professional opportunity for the teachers in the country to have their work recognized in a bigger scale. This is open for the Filipino teachers in from private and public schools in the country and abroad including the Philippine Schools Overseas (PSO).

This event is open for the following teachers:

- Science
- Mathematics
- Research
- English

The categories are as follows:

- Elementary
- High school
- Senior High School
- Pre-service teachers (students who are taking up education courses)

Mechanics:

A. Based on your experience as a teacher, select a particular curriculum standard/s (in a form of competency or a performance standard) that may be presented in a creative or unique, way leading to easy understanding of the concepts and skills.

B. Create a one page lesson plan in Word Format (A4 Size, Font: Arial, Font Size of Texts: 11) and a one page activity sheet

LESSON PLAN TITLE

Grade Level / Subject / Strand

Objective/s:

Procedure:

National Science and Engineering Fair Philippines 2018

C. The lesson plans will be judged according to the following criteria:

- Alignment to the target curriculum standards
- Provision for effective assessment
- 21st century skills development/integration

- Learner centeredness
- Creative inputs

How to join:

- A. Email us at nsefp1@gmail.com to express your intent to join NSEF 2019 and attached the following:
- a) Project Description
 - b) Copy of the deposit slip of P300 pre evaluation fee
 - c) Information sheet.
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

TEACHERS CATEGORY

Strategic Intervention Material Competition

This contest aims to produce a repository of the intervention materials for the least mastered curriculum content or skills that will meet the needs of the 21st century learners. This will serve as a professional opportunity for the teachers in the country to have their work recognized in a bigger scale. This is open for the Filipino teachers in from private and public schools in the country and abroad including the Philippine Schools Overseas (PSO).

This event is open for the following teachers:

- Science
- Mathematics
- Research
- English

The categories are as follows:

- Elementary
- High school
- Senior High School
- Pre-service teachers (students who are taking up education courses)

Mechanics:

Mechanics:

- a) Based on the existing school assessment data, identify the least mastered skill/s in a particular subject area.
- b) Conceptualize a solution to improve the list mastered skills and test the material/ procedure in the school.
- c) Email us your personal information, outputs and the copy of the deposit slip to nsefp1@gmail.com

How to join:

- A. Email us at nsefp1@gmail.com to express your intent to join NSEF 2019 and attached the following:
- d) Project Description
 - e) Copy of the deposit slip of P300 pre evaluation fee
 - f) Information sheet.
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

Registration Fees

- Teachers: P2,500
- Students: P1,700
- Observers: P1,500
- Event Shirt: P300

Deposit the fees to:

BDO Account Name: STEM EDUC TRAINING HUB

Account Number: 006320401108

Contact Details:

Phone: 09989510225/ 09565167289/09153530454 / 09331077763 / look for Kelly or Hernan

ELEMENTARY CATEGORY

Science Invention & Investigation Competition

This event is open for elementary pupils ages 8-12 from private and public schools that have the interest in creating new products and finding answers to questions through investigation. It aims to develop critical thinking and problem solving skills among children.

Categories:

1. Invention

This category is open for individuals and team who would want to showcase their noble invention that may be beneficial to human beings, environment of the society. Project description supported by pictures should be emailed for pre-evaluation.

2. Investigation

This category will focus on the scientific investigation made by the pupils. The projects may focus on science, mathematics or robotics. Project description should be emailed for pre evaluation.

How to join:

- A. With the assistance of the school adviser, email us at nsefp1@gmail.com to express you intent to join NSEF 2019 and attached the following:
 - a) Project Description
 - b) Copy of the deposit slip of P300 pre evaluation fee
 - c) Information (name, school, grade level, age, name of the adviser)
 - d) Parent consent indicating that the child is allowed to join the competition
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

JUNIOR & SENIOR HIGH SCHOOL CATEGORY

Scientific Research Competition

Description

This event is open for students from public and privates schools ages 13-18. It is a venue for the youth of the country to express and practice their acquired scientific skills by finding solutions to the societal, environmental and even community problems through scientific research.

Categories:

1. Experimenting Category

This category includes the following topics:
Behavioural & Social, Sciences, Biology, Chemistry, Environmental, Flora & Fauna, Food Science

2. Engineering Category

This category includes the following topics:
Astrophysics, Energy & Space, Physics, Electricity & Electronics, Inventions & Innovations, Robotics, Computer Science & Math

3. Multidisciplinary Category (Open Category)

This category includes research topics other than experimenting and engineering categories.

How to join:

- A. Email us at nsefp1@gmail.com to express you intent to join NSEF 2019 and attached the following:
 - a) Abstract for the Research Competition
 - b) Project Description only for
 - Science Investigatory Projects
 - Science and Mathematics Intervention Materials
 - Creative Lesson Plan Competition
 - c) Copy of the deposit slip of P300 pre evaluation fee
 - d) Information sheet.
- B. You will receive a feedback to inform you if you qualify for the competition. You will receive the details of the competition including the write ups needed to be submitted. Deposit the registration fees within 5 days after the confirmation.

COLLEGE/ UNIVERSITY CATEGORY

Scientific Research Competition

This event is open for college students from public schools ages 18-23. It is a venue for the students of the country to express and practice their acquired scientific skills by finding solutions to the societal, environmental and even community problems through scientific research.

Categories:

1. Experimenting Category

This category includes the following topics:
Behavioural & Social, Sciences, Biology, Chemistry, Environmental, Flora & Fauna, Food Science

2. Engineering Category

This category includes the following topics:
Astrophysics, Energy & Space, Physics, Electricity & Electronics, Inventions & Innovations, Robotics, Computer Science & Math

3. Multidisciplinary Category (Open Category)

This category includes research topics other than experimenting and engineering categories.

How to join:

- A. Email us at nsefp1@gmail.com to express you intent to join NSEF 2019 and attached the following:
 - a) Abstract for the Research Competition
 - b) Project Description only for
 - Science Investigatory Projects
