CABISUCULAN ELEMENTARY SCHOOL

Cabisuculan Elementary School is a Child-Friendly School located at Purok 3, Cabisuculan, Science City of Muñoz, Nueva Ecija. It is one of the non-central schools in the Division of Science City of Munoz.

CES was founded in 1962. It has a total land area of 5,000 square meters which was donated by two philanthropic families of Architect Alejandro Balais and Mrs. Cresencia Medina.

At first, CES started with only grade one class. Classes were held in a simple classroom built by stakeholders through Bayanihan. At that time, there was only one teacher. A combination class of grade one and grade two was formed after a year to cater more enrollees. The pioneer pupils were very passionate about their studies. Since CES does not offer complete elementary education at that time, the pupils were forced to transfer to nearby schools to continue their studies until it became a complete elementary school in 1989 and conducted its first Graduation Ceremony in 1990 with only less than 15 graduates.

Now the school continues to provide quality basic education. Its 59 years of existence witnessed all the humble beginnings of all the successful individuals who have studied there.

The following are the administrators who contributed their skills and dedication to make the school more competitive in terms of learning and managed the school operation since it has started.

YEAR OF LEADERSHIP

ADMINISTRATORS

1990-1991

Virgilio Domingo

1992-1994

Bernardo A. Gargabite

1995-1997

Emelita D. Ballesteros

1998-1999

Isabelina C. Contapay
