**Brief History of DepEd- CLSU Elem. (Lab.) School**

Through a Memorandum Of Understanding (MOU) between the Bureau of Public School (BPS) and the Central Luzon State University (CLSU) the BPS-CLSU Elementary (Lab.) School was opened on July 13, 1970. It was soon named MEC III-CLSU then DECS-CLSU and currently DepEd-CLSU Elementary (Lab.) School. Specified in the MOU that the school would be supervised and managed by the Schools Division Office and CLSU would provide all the facilities and equipment needed by the school that the BPS could not provide.

The school started with only 2 combination classes, Grades I-II and Grades III-IV with only 2 teachers from Bagong Sikat Elementary School and the other two Peace Corps volunteers were assigned to teach English and Mathematics in elementary. CLSU grandstand served as classrooms, school clinic and library.

Through the efforts of CLSU President Amado C. Corpuz, Dean of the College of Education Professor Conchita M. Cruz, the first lady of the University, Dr. Filomena Campos, Governor Eduardo L. Joson, and Mr. Prescilliano Evangelista, an alumnus of the university. The following School Year, 1972-1973 the Grade V class was organized until it became a complete elementary school.

The school served as a laboratory school of the College of Education Students wherein they observe classes and perform actual teaching before they will be sent out for their off campus training. The priority clients of the were the children of staff and employees of the university.
