BRIEF HISTORY OF MARANATHA CHRISTIAN ACADEMY

The NCLC-MCA is a non-stock, non-sectarian and non-profit institution which offers quality but low cost education that seeks to form persons with high regard for Christian values. Established and dedicated to provide quality and relevant education which is accessible to all with emphasis on Christian Living, this school is more than an educational institution. It is a ministry established initially in 1980 from an informal preschool class of thirteen pupils conducted in one storey building in Marikina City now, largely increased both with population and building structure with more than one hundred seventy (170) branches nationwide, the institution offers various facilities and amenities designed to give full and value-added support to the learning environment of each student.

The institution pioneered by Leticia S. Ferriol, Ed.D, with the aim of providing quality education that will meet the community and global competitiveness geared towards the development of intellectual, social, moral and above all, spiritual being.

Our years of commitment and experience, coupled with faith in God, convinced us that the objective as envisioned by this institution will come to reality.

The school philosophy is based on Proverbs 22:6 "Train up a child in a way he should go and, when he is old, he will not depart from it".

We believe that right training yields right result. Laying the right foundation in the heart and mind of our students is significant.

"A school system that upholds Christian tradition of excellence in service to God and humanity through liberating education towards a God-fearing society."

This institution is envisioned and geared to develop well-rounded personality among students: like the development of the intellect; the internalization of social,
