children it serves. The institution also extends educational assistance to poor but deserving students.

The Science City Montessori School, Inc. believes that all children are valuable and capable because they are created in the image of GOD. Our vision is to be the Science City's premier school for children ages 1 ½ to 15 years. The school guided by our mission to provide a Christian environment coupled with the Montessori method of learning that will allow the spiritual, educational, and developmental growth of our children.

The school objectives are to acknowledge that God is central to all education and that the supreme goal is a personal relationship with God; to promote the growth of the student in mind, body, and spirit; to provide the best learning environment by upgrading the learning resources annually and upgrading the school facilities as the need arises; to develop an appreciation for and a practice in high ethical and moral standards of conduct; to inculcate responsible citizenship among the children by selecting and organizing annual events in support of community needs; to establish and maintain a home life that respects the sanctity of marriage, the homage due to parents, the personality of each individual in home, and that regards Christ as its head; to give the children a firm foundation in the Bible, familiarizing them with God's word through scripture memorization, stories, songs, and drama; and to inspire the children and teachers strive for righteousness by exposing them to invited guests with testimonies of victory, success or transformation.

In 2003 the institution offers Secondary Level and granted Recognition by the Department of Education before the first batch of its graduates in 2007, Secondary S-028 s. 2007. The Science City Montessori School adhere the Objectives of Secondary

Education as stated by the Department of Education and in the Education Law and the Private Schools are to continue to promote the objectives of Elementary Education, but shifting in emphasis from mastery of basic tools of learning, expression, and understanding to the use and extension of the tools for further exploring and acquiring intellectual, social, moral and physical concepts, ideals, attitudes and skills in order to develop the whole human being. And to discover and enhance, in addition, the different aptitudes and interests of the individual student so as to equip the learners with skills for productive endeavor and thus prepare the individual for work in the real world and/or further formal studies in higher education.

The Science City Montessori School, Inc. believes that every citizen has the right to quality education and that the children deserve to receive such learning. In response to meet today's demand for a quality education and globally competitive graduates, the institution is ready to serve all even those deserving ones who cannot afford high tuition fees through grants in form of scholarship or reduced tuition fee.

Majority of the learners came from the city, from different barangays of Science City of Muñoz, nearby town such as Talavera, Sto. Domingo, Guimba and San Jose City.

The institution actively participated and received recognition in different level of competitions in academic and in Sports.

As of to date the institution produces graduates in the field of Civil Engineering, Veterinary Medicine, Nursing, Statistics, Information Technology, Agriculture, Hotel and Restaurant Management, Business and Accountancy. And currently working in Private and Public Agencies here in the Philippines and abroad.
